

# Making the **Case** for Helicopter Flight Crews.

*The paperless cockpit is here.  
Get connected and protected.*

*PIVOT is about security. Tablet security and protection, yes – but also security from an uncertain future in an ever-changing electronic landscape.*

*PIVOT secures devices in your helicopter cockpit while creating a constant you can count on in the future – no matter what.*

# **PIVOT™**

**Better Connection. Better Protection.**

## Versatile EFB Mount Solution

150 Airlines, Military, Law Enforcement  
& Corporate Users Globally

150,000+ Daily Users & Growing

Leg Strap

Mount

Reversible  
Kneeboard  
with Clipboard

### *A flexible option for limited space.*

Easily move your EFB from kneeboard to window mount. Designed with helicopter pilots in mind, the patented PIVOT tablet case and universal mounting system creates a high-performance, streamlined solution for all popular EFB devices – perfect for many flight departments, from law enforcement and EMS to corporate and oil and gas.

### *Begin your EFB program today.*

PIVOT has devised a wide variety of mounting accessories for aircraft and vehicles of all types, and into helicopter cockpits is a natural extension. Our mounts don't require special certification and can be installed in minutes. PIVOT is a safe, inexpensive and expeditious way to begin or enhance your EFB operations.

# Can't Miss Connectivity

**Click! Connection** – With PIVOT's audible engagement, be confident when hearing the "Click!" that your connection is locked in place.

**360° Adjustability** – PIVOT's FAA approved, patented mounting system provides one-handed adjustability with a full range of tilt and rotation angles.

**Future Proof** – Upgrade your EFB knowing your mount will never be obsolete. The PIVOT standardized mount supports current and future devices.

**Easy Setup** – Avoid lost time due to helicopter cockpit setup with the quick and easy PIVOT mounting system. Transition from a kneeboard, connect and adjust in only seconds.

**Pilot Tested** – With millions of block hours logged and counting, PIVOT continues to set the standard in EFB cases and mounts.
